Don't miss this briefing if your business:

- Uses any software as a service (SaaS) such as ERP, CRM, etc.
- Conducts online sales
- · Uses cloud data storage

Cloud Agreements

Dos, Don'ts and Gotchas

May 4, Four Points by Sheraton, Saginaw

This briefing will cover top issues and tips for:

- When and how to negotiate agreement terms
- Service levels
- Disaster recovery
- Security obligations
- and more

Cloud Agreements

Dos, Don'ts and Gotchas

Who reads the fine print of cloud agreements? We do, and many common provisions may surprise you. Cloud computing touches on areas ranging from your personal phone to the most critical and sensitive applications that businesses depend on. By attending this briefing, you'll learn to recognize some of the flags to look for in order to better manage risk, including:

- Pricing How can you avoid being surprised by cost changes?
- Changes When and how can a provider modify the terms and conditions?
- Service Level Agreements Are performance levels and downtime negotiable?
- Termination/Suspension What's the difference and why should you care?
- Disaster Recovery and Data Backups Who does what and when? Is the plan adequate?
- **Security Obligations** Who takes financial responsibility for a breach? What level of "attack" triggers a notification to you?
- Warranties What's covered and what are the remedies?
- Indemnification If a claim is brought against you, but is related to the cloud service, who's liable?
- Limitation of Liability What are the limits, carve outs and uncapped damages exposure?
